

Summative assessment

Our two learner profiles in the unit are Knowledgeable and Inquirer.

Knowledgeable means to know lots of information about striking or fielding or both. Inquirer means to ask questions about how to throw the ball far and how to bat properly so you can hit the ball further.

You can actively learn by doing it instead of just watching people do it. Personal growth means to grow by knowledge and maybe strength.

I can use what I learned out of PE by learning how to do other's things I might don't know how to process or play. - Great!

Also, in physical education we play tee-ball matches against each other and we give other pupils in our class feedback. They rank a number on teamwork, hitting, catching, and throwing. Then, on the next class we practice our tough spots. My mini coach is Tony, he helped me out. Awesome!

We held a tee-ball tournament against the whole grade 2. We used these matches to learn how to improve.
